The Nuclear and Industrial Safety Agency (NISA) received a report from Tokyo Electric Power Co., Inc. (TEPCO) on January 17, 2012 that part of the facilities in Fukushima Dai-ichi NPS, TEPCO, had been suspended along with the instantaneous voltage reduction of the power transmission system of the NPS.

This is to inform the public that NISA issued a direction today (January 20) to TEPCO as described in Appendix.

Appendix: Regarding Response to Instantaneous Voltage Reduction of Power Transmission System of Fukushima Dai-ichi Nuclear Power Station, Tokyo Electric Power Co., Inc. (Direction)
