C. Impact on Japanese Economy

1. Estimated Economic Damage of the Tohoku-Pacific Ocean Earthquake and Plan for Reconstruction

2. Impact on Energy Supply/Demand in Japan
1. Estimated Economic Damage of the Tohoku-Pacific Ocean Earthquake and Plan for Reconstruction

**Damaged Stocks in Disaster Areas**

*estimated by the Cabinet Office of Japan

\[16\sim25 \text{ trillion Yen (US$195\sim305 billion)}\]

*(Reference) Japan’s GDP : 500 trillion Yen (US$5.9 trillion)*

**Plan for Recovery and Reconstruction**

*from the speech of Prime Minister Kan on Apr. 1 and Apr. 12

- Short-term: clearing debris, erecting temporary housing, rehabilitating industrial facilities
- Mid and long-term: creating disaster-resilient local community, eco-friendly social system, and welfare-oriented society

“Reconstruction Planning Council” established
- Compiling supplementary budgets and enacting/amending relevant laws
2. Impact on Energy Supply/Demand in Japan

Tokyo Electric Power Company supplies electricity to an area with 42 million people and 40% of Japan’s GDP, but lost 40% of its generation capacity after the earthquake and tsunami.

We are making the utmost efforts to match supply and demand during the peak-load summer on both the demand and supply side.

![Graph showing energy supply and demand]

- Peak Demand of the Month in 2010
- Peak Demand of the Month in 2011
- Supply Capacity of TEPCO in 2011
  - before March: actual value
  - after April: estimated value
