Seismic Damage Information (the 276th Release)
(As of 12:00 October 17, 2011)

The Nuclear and Industrial Safety Agency (NISA) confirmed the current situation of Onagawa Nuclear Power Station (NPS), Tohoku Electric Power Co. Inc.; Fukushima Dai-ichi and Fukushima Dai-ni NPSs, Tokyo Electric Power Co. Inc. (TEPCO); Tokai Dai-ni NPS, Japan Atomic Power Co. Inc. as follows:

Major updates are as follows:

1. Nuclear Power Stations (NPSs)
   - Fukushima Dai-ichi NPS (TEPCO)
     - Hydrazine was injected into the spent fuel pool of Unit 2 (from 10:28, October 17).
     - The accumulated water in the basement of the reactor building of Unit 6 was transferred to the turbine building (from 10:00 to 10:12, October 14).
     - Due to a declining tendency in the flow rate of the seawater pump (C) in the residual heat removal system (RHR) of Unit 6, the RHR (A) was suspended (at 14:42, October 14). Then, RHR (A) was restarted (at 15:23 of the same day). The flow rate returned almost to the predefined level.
     - The accumulated water in the basement of the turbine building of Unit 6 was transferred to a temporary tank (from 10:00 to 16:00, October 14).
     - The decontaminated accumulated water of Units 5 and 6 was sprayed on the premises (from 09:00 to 12:38 on October 15, from 09:06 to 10:55 on October 16, from 09:10 to 10:55 on October 17).
     - A single circulating operation was performed on the decontamination device in order to decontaminate the water in the waste treatment water tank (from 11:38, October 4 to 14:00, October 16).
<Temporary Access to Restricted Areas>
- Residents were allowed temporary access in the following cities and towns:
  2) Second round (by private car)
      Minamisoma City (on October 15)
      Futaba Town (on October 15)
      Naraha Town (on October 16)
      Namie Town (on October 16)

<Instructions on Food and Drink>
- Addition of the suspension of shipment
  On October 14, Yuzu produced in Date City and Koori Town in Fukushima Prefecture.
  On October 14, shiitake produced in Tsuchiura City, Namegata City, Hokota City and Omitama City in Ibaraki Prefecture (limited to those grown on raw lumber in open fields).
  On October 14, shiitake produced in Tsuchiura City and Hokota City in Ibaraki Prefecture (limited to those grown on raw lumber in a growing house)

- Lifting the suspension of shipment
  On October 14, tea produced in Aikawa Town and Kiyokawa Town in Kanagawa Prefecture.
