The Ministry of Economy, Trade and Industry (METI) is inviting businesses who wish to apply for The FY 2013 Subsidy Project for the Contaminated Water Issue at TEPCO's Fukushima Daiichi Nuclear Power Station.

1. Outline of the project

The Subsidy Project for the Contaminated Water Issue at TEPCO's Fukushima Daiichi Nuclear Power Station is intended to install land-side impermeable walls utilizing the frozen soil method and to develop multi-nuclide removal equipment with superior performance as countermeasures against the issue of contaminated water at TEPCO's Fukushima Daiichi Nuclear Power Station.

The Government of Japan plays a proactive role in financially supporting the projects that are technically especially difficult, but for which there are an urgent need.

2. Period of invitation

From Wednesday, September 11th, 2013, to midday on Tuesday, October 1st, 2013 (Japan Standard Time)

* Proposal document must be written in Japanese or in English.
* Applicant will be required to make a presentation.

3. Reference (METI HP)

(Japanese language only)

4. Division in charge

Nuclear Accident Response Office, Electricity and Gas Industry Department, Agency for Natural Resources and Energy
